Subject: NW Oregon Riparian Thinning Elevation- science team documents
Attachments: Appendix_A (1).pdf; Appendix_B.pdf; Appendix_C (1).pdf; Appendix_D (1).pdf; FINAL murrelet and owl document.pdf; FINAL wood recruitment document.pdf; FINAL_temperature_summary_document_17-Jan-2013.pdf; preamble to SRT docs.pdf

Hi Marlies,

Thanks again for taking time to talk today – it was really nice to meet you. Attached you will find federal interagency Science Review Team (SRT) papers I mentioned. The papers summarize riparian thinning effects on: 1) stream temperature; 2) large wood recruitment; and 3) two ESA listed species. The 4 appendices go with the stream temperature document. There is also a preamble document that describes the SRT membership and role. The documents were prepared to help resolve agency disagreements on the effects of riparian thinning that arose during ESA consultation. My apologies for filling your inbox if you already have these documents!

Thanks again –

Teresa
